160 Findings
(U) RECOMMENDATION / OBSERVATION:

CPA MOJ Prisons Department identify clearly which facilities are or will be a part of the MOJ vice the MOI include in this plan staffing instructions specifically identifying levels of authority, duties and pay scales for all confinement personnel. Establish memorandums of agreement between MOI and MOJ delineating each ministry's ability to utilize the other's facilities and which clearly identifies each other's responsibilities.

(U) FIX / ACTION / CHANGE:

Fix: Identify prisons and correctional facilities.

Action: ID proper facility and authority.

Change: Ends uncertainty.

R-002
(U) RECOMMENDATION / OBSERVATION:

The Iraqi Correctional System HQ and the CPA Prisons Department need to be co-located or together more than periodically to facilitate training of the Iraqi leadership as much as possible, involving them in the restoration process. Sending the highly recruited Iraqi Correctional System Director to training in management, ethics, accounting and strategic planning will assist in the transition process, increase the perceived importance and make the position more desirable.

(U) CURRENT ASSESSMENT:

- Initial intent met. OSD continues to work with Justice on greater rule of law and judicial sector development/reforms.

(U) FIX / ACTION / CHANGE:

Fix: Co-locate correctional HQ and Prisons Department.

Action: Justice incorporated a similar finding as part of grand strategy – DOJ working with MOJ in Iraq.

Change: Recruitment ongoing.
(U) RECOMMENDATION / OBSERVATION:

Policy both operational and budget should be based on a national plan, which is centrally developed and managed, but locally administered to fit the needs of the region where it is being employed.

(U) FIX / ACTION / CHANGE:

Fix: Need national plan.

Action: Develop a comprehensive plan.

Change: National plan to address varying needs of regions.

**Issue Title (Develop Standard for Training to Ensure for Safe and Secure Operations): R-008 Ryder Mid-term, Item 2b, pg 14**

**RECOMMENDATION / OBSERVATION:**
Develop a standard issue for safe and secure operations of prison facilities. Take into account that the current threat environment may necessitate a more robust arsenal that may not be required once the country stabilizes. Training on all weapons and tactics to be used must be a substantial block of instruction at the corrections academy. Training records for employees should be developed with copies sent to the facility where a cadre is assigned and one maintained in a central personnel repository.

**CURRENT ASSESSMENT:**
- Justice disagrees with keeping a "personnel registry," but is working with Iraqi MOI (Corrections) to address "records" issue and other administrative matters associated with operating facilities. Force training is being handled by Army and the COCOM.

**FIX / ACTION / CHANGE:**
Fix: Develop standards.
Action: Assess threat and develop appropriate force to mitigate. Training records for employees should be monitored.
Change: Justice is developing program for monitoring employee training.

**OPR:** OSD

**OCR:** PWG/CENTCOM
(U) RECOMMENDATION / OBSERVATION:

Within the budget cycle, each of the ministries should submit a validated budget to MOF who would then fund the appropriate portions of the individual Ministry budgets. The funding should go to the specific ministry to be managed by that ministry and sent to the regional MOJ areas to achieve the objectives of the ministries national plan. In this way pay issues can be avoided and contracts can be monitored and paid in such a way as to provide contractor accountability to the MOJ.

(U) CURRENT ASSESSMENT:

Emb. Baghdad addressing the issue; Justice believes that corruption is endemic to Iraq Gov’t. Justice reviews contracts in Washington, D.C.; action item for PC/DC level for solution.

(U) FIX / ACTION / CHANGE:

Fix: Improve accountability.

Action: Better accountability mechanisms to ensure money allocated to ministries are properly appropriated.

Change: Being addressed by the DC/PC level.

R-022 to R-034
(U) RECOMMENDATION / OBSERVATION:

CPA and the MOJ must continue to further develop a more comprehensive tiered training Program of Instruction. This plan should include a method of increasing the graduation rate to meet the system cadre requirements. Allow the CPA and MOJ to plan a more comprehensive training program with input from the Iraqi Correctional Officers currently employed to help the Iraqi people feel that they are apart of the building of their future as well as what the follow-up training requirements should be. This plan should allow for a reduced estimated timeline for the end-state of the in-service training requirement to encompass more than the original 30,000 correctional employees.

(U) CURRENT ASSESSMENT:

Initial intent met. OSD continues to work with Justice on greater rule of law and judicial sector development/reforms.

(U) RECOMMENDATION / OBSERVATION:

Lack of Emergency Funds for each of the facilities to ensure adequate construction. Identify emergency funds to complete construction of regional facilities for sentenced detainees. Conduct a survey of current facility capacities to determine future facility housing requirements.

(U) CURRENT ASSESSMENT:

DoD is dealing with reconstruction costs/building projects for both AF and IZ. Justice is working with DoS and DoD on this issue through the NSC. (U) RECOMMENDATION / OBSERVATION:

CPA and MOJ must establish statements of work (written contracts) for the contractors and effectively manage the work that is contracted.

(U) FIX / ACTION / CHANGE:

Fix: Need better oversight over contracting.

Action: Exercise oversight.

Change: Justice reviewing all contracts.

(U) RECOMMENDATION / OBSERVATION:

The MOJ must develop a plan with the CPA that will allow for the hearings to be conducted at or near the correctional facilities to decrease transportation requirements and speed up the legal process. Furthermore, where possible, establish future court buildings adjacent to these facilities to decrease the transportation requirements. Establish a transportation section within the Iraqi, Department of Corrections with the sole purpose of transportation of detainees.

(U) CURRENT ASSESSMENT:

- Continuing concern – part of the national strategy for Justice.

(U) FIX / ACTION / CHANGE:

Fix: Need hearings conducted in closer in proximity to correctional facilities.

Action: Need dedicated corrections transportation.

Change: Justice assessing this recommendation on a daily basis.

(U) RECOMMENDATION / OBSERVATION:

CPA along with the MOJ must develop a plan that will allocate funding for the construction of additional Regional facilities to meet capacity requirements.

(U) RECOMMENDATION / OBSERVATION:

Ultimately all criminal detainees should be handed over to the Iraqi criminal system with monitoring and oversight performed by representatives from the CPA advisory staff. U.S. forces will solely be responsible for the internment of high value detainees and security internees until such a time as they have all been screened and released or other determination is made as to their status.

(U) RECOMMENDATION / OBSERVATION:
The success of the Iraqi prison system (IPS) is dependent upon the integrated and strategic planning through several phases of transition from military to Coalition Provisional Authority, to a self-sufficient Iraqi system. There are several main themes essential to the effective strategic planning for these transformations. System capacity, personnel plans and requirements, among these central themes. Attention to each of the interactive parts of the justice system is required for eventual effective transfer of the prison operations to an independent system.

(S) FIX / ACTION / CHANGE:

Fix: TBD

(b)(1), (b)(5)

Change: TBD
(U) RECOMMENDATION / OBSERVATION:

Full integration of the Iraqi leadership in the planning and development of the corrections system and other areas of the Justice System is essential to comprehensive strategic planning. The weekly meetings should consider refocusing their discussions on policy, budget, planning, benchmarking and quality checks related to those benchmarks. Attendance should include only the stakeholders from the Prisons Department, Courts, Juvenile System Police, and their Iraqi counterparts. Weekly reports from the facility locations could be sent the day prior for discussion as part of a specific agenda. Educating the Iraqi system's eventual leadership in areas of system management, operations, security, custody, and control techniques is also necessary. There are several very good international corrections management-training locations available (for example, Kings College of England or the National Institute of Corrections). The system leadership should become involved in national and international corrections associations as a resource for information and future assistance. Planning and implementation must be an integrated process between the military, CPA and the emerging Iraqi Prison System.

(U) CURRENT ASSESSMENT:

- Continual process. Senior advisors to MOI in country and working to resolve training issues. Justice has included similar finding as part of national strategy.

(FIX / ACTION / CHANGE:

Fix: Need weekly meetings on strategic development of justice sector issues.

Action: Having meetings as needed.

Change: Justice developing national strategy – has advisors in Iraq to address issue directly.

R-071 & R-072
**Issue Title (Required Number of ICS Officers):**
R-073 Ryder Mid-term, Item 2b, pg 35

(U) **RECOMMENDATION / OBSERVATION:**

CPA MOJ should conduct a staffing analysis, based upon the Iraqi cultural patterns. Once a required number of correctional officers is established, CPA should prioritize staff efforts to recruit and train, similar to those actions being taken with the Iraqi police. This becomes critical as the reconstruction projects are completed at the larger regional correctional facilities.

(U) **CURRENT ASSESSMENT:**

- Justice national strategy. Conducting necessary evaluation to determine appropriate staffing.

(U) **FIX / ACTION / CHANGE:**

Justice addressing in national strategy.

**OPR: OSD**
**OCR: OSD - Justice**
(U) RECOMMENDATION / OBSERVATION:
Background checks are a critical aspect of the prison employment process. The potential for abuse, corruption and threat to public safety is such that extreme attention must be paid. Due to the high number of cadre required, the length of the vetting process and the comprehensive training it is recommended that the training program must increase its graduation pace (i.e., greater capacity, not a shorter course). The training academy program should soon move from dependency upon military assets to a robust CPA program or consideration of a contract training program through one of the many companies who specialize in corrections training in order to meet present and future needs.

(U) CURRENT ASSESSMENT:
- To the extent training programs require, justice is conducting necessary checks and managing training programs.

(U) FIX / ACTION / CHANGE:
Justice addressing in national strategy.

OPR: OSD
OCR: OSD - Justice
(U) RECOMMENDATION / OBSERVATION:
We cannot overstate the importance of strategic planning in relation to anticipated criminal population trends and facility needs. The experience within the current CPA MOJ Prisons Department is clearly capable of accomplishing a prospectus of needs and a proposed strategic 10-30 year plan. The Iraqi Prison System leadership must be involved in the development process so that they may undertake the task independently upon the CPA's transition of authority to the new Iraqi government. The CPA MOJ Prisons Department should assist the Iraqi Prison System leadership to establish its own professional organization and relationships with other nations' corrections associations (e.g., The American Correctional Association, International Corrections and Prisons Association, etc.).

(U) RECOMMENDATION / OBSERVATION:
- Create a robust automated knowledge center, incorporating information and documents currently located in diverse data stores to allow for sharing of all information on internees: OPTIONS (ref pg 11)
- Implement a theater level network that supports folder file, and document sharing.
- Ensure bandwidth is adequate to support the network traffic and all the users.
- Ensure that all units have access to the network with adequate number of workstations to support the mission, especially for those units that capture and/or initially process internees and those units that conduct analysis and interrogations.
- Develop a database that incorporates the various data stores, from the time of capture and through the intelligence analysis and interrogation process.
- The web-based Joint Detainee Information Management System (JDIMS) developed for and currently utilized by JTF Guantanamo, with some tailoring and modifications, will be adequate to meet this need of a consolidated internee database. This database also contains a collection management and dissemination module that manages all requirements and reporting on internees. It also contains an online reports writing feature, which allows the analysts and interrogators to create reports and immediately share information.
- The Detention Information Management System (DIMS) also developed for and utilized by JTF Guantanamo to capture initial detainee information as well as operational data gathered by the military police, will allow for input of internee information from the time of capture and throughout their stay at the detention facilities when not being interrogated.
- A Joint Detainee Information Management System-Iraq will share data with JTF Guantanamo detainee database and make it available to the intelligence community. By sharing detainee information, the intelligence community will benefit from a web-based single source of detainee information readily available to them via the SIPR network.
(U) RECOMMENDATION / OBSERVATION:
- A similar system should be implemented in Afghanistan for the detainee operations conducted there.
- The goal of a worldwide-integrated detainee database is to address the needs of detainee interrogation operations and to share information regardless of location. It is the tool to bridge intelligence and technology in order to achieve information dominance and efficient operational control over the detainee/internee population and allow for near-real time data mining, information visualization, and intelligence exploitation to combat the Global War on Terrorism.
