The attack initially occurred at ground level—Johnson was wearing heavy ballistic armor plates.

He subsequently barricaded himself into a local community college—where he was engaged by SWAT and negotiators, before being killed by a police robot w/ C-4 explosive

At his residence, police found materials that could possibly made to manufacture IEDs—including chemical precursors, PVC caps, etc.

FBI is re-distributing a Situational Intelligence Report concerning threats against police in Louisiana following an officer-involved-shooting in Baton Rouge.

Future conference calls may be forthcoming if new information emerges.

OVERVIEW:

Dallas officials report the deceased barricaded gunman acted alone.

The deceased shooter has been identified as Micah Xavier JOHNSON, date of birth: July 2, 1991.

DETAILS:

Johnson had no criminal history.

Records indicate he has been an Army or Army National Guard member. We are working to verify his current status.

Johnson's current employment status is unknown—although he applied for Unemployment benefits in 2014 post-military deployment

Johnson was armed with an SKS rifle and two handguns.

Based on statements by Johnson that there were explosive devices in the area, police swept the area thoroughly and found none.

In TV interviews, the Dallas Chief of Police stated Johnson expressed he was upset about the recent police shootings in Baton Rouge and Minneapolis in verbal exchanges with police during the standoff. The chief also briefed that prior to his death, Johnson stated he had acted alone.

The Dallas Chief of Police explained they used a bomb robot with an attached explosive to approach Johnson, and that Johnson was killed when the device detonated.
