a. One (1) Printer: HP Laser Jet 4100 series with a power supply capable of both, US/UK standards i.e. 110v-220v.

b. One (1) Dell Laptop with Pentium processor, 40 gb hard drive, a CD/RW drive, 256MB of RAM with a power supply capable of both, US/UK standards i.e. 110v-220v. NOTE: This laptop will be primarily used for mobile support (e.g., fly-away capability) missions as directed by the C2. Additionally, one (1) digital camera for minimum three mega-pixel quality, tripod, and case for secure transport of both, laptop and camera (e.g., pelican hardcase with internal/external locking mechanism)

c. All AIDP equipment must be network capable.

d. Technical Considerations - Interrogation Support Operations Team: The Interrogation Support Cell is broken down with the following support positions.

i. Screeners:

   1. The screener will conduct screening with use of organizational reference documents, IAW local SOP and higher-authority regulations.

   2. The screener will coordinate and work in conjunction with MP and interrogation units assigned to support operations of the Theater/Division Interrogation Facility.

   3. The screener will review the data collected and cross-reference intelligence collection priorities and plans, in order to ensure proper identification, categorization, disposition, and interrogation of persons IAW with screening SOPs and plans.

   4. The screener will take photographs of detainees for screening report.

   5. The screener will conduct other intelligence supporting activities related to interrogation operations as directed.

ii. Data-Entry and Intelligence Research Clerk:

   1. Database/Intelligence Clerk (D/IRC) will enter screening data as provided by the screening team.

   2. The D/IRC will conduct intelligence research as directed by interrogation team and support interrogation efforts as required (i.e., intelligence analysis support during interrogations).

   3. D/IRC will conduct other intelligence supporting activities related to interrogation operations as directed.

iii. Tactical/Strategic Interrogator:

   1. The interrogator will conduct tactical, operational and strategic interrogations with use of organizational reference documents, IAW local SOP and higher-authority regulations.

   2. The interrogator will coordinate and work in conjunction with MP unit and MI interrogation units assigned to support operations of the Theater/Division Interrogation Facility.

   3. The interrogator will review the data collected and cross-reference intelligence collection priorities and plans, in order to ensure proper identification, categorization, disposition, and interrogation of persons IAW with interrogation SOPs and plans.

   4. The interrogator will conduct, with usage of a supporting linguist and interrogation plan, interrogations of identified persons of interest, detainees, and POWs IAW with local and higher-authority regulations.

   5. The interrogator will conduct other intelligence supporting activities related to interrogation operations as directed.

   6. Interrogators will report findings of interrogation IAW with local reference documents, SOPs, and higher-authority regulations as required/directed.

"FOR OFFICIAL USE ONLY" INFORMATION

Provided by the Security Support Division
Deputy Chief of Staff for Intelligence (DCSINT)

1. The "For Official Use Only" (FOUO) marking is assigned to information at the time of its creation in a DoD User Agency. It is not authorized as a substitute for a security classification marking but is used on official government information that may be withheld from the public under exemptions 2 through 9 of the Freedom of Information Act.

2. Other non-security markings, such as "Limited Official Use" and "Official Use Only" are used by non-DoD User Agencies for the same type of information and should be safeguarded and handled in accordance with instruction received from such agencies.

3. Use of the above markings does not mean that the information cannot be released to the public, only that it must be reviewed by the Government prior to its release to determine whether a significant and legitimate government purpose is served by withholding the information or portions of it.

4. IDENTIFICATION MARKINGS

a. An unclassified document containing FOUO information will be marked "FOR OFFICIAL USE ONLY" at the bottom of the front cover (if any), on the first page, on each page containing FOUO information, on the back page, and on the outside of the back cover (if any). No portion markings will be shown.

b. Within a classified document, an individual page that contains both FOUO and classified information will be marked at the top and bottom with the highest security classification of information appearing on the page. If an individual portion contains FOUO information but no classified information, the portion will be marked "FOUO."

c. Any "For Official Use Only" information released to a contractor by a DoD User Agency is required to be marked with the following statement prior to transfer:

THIS DOCUMENT CONTAINS INFORMATION EXEMPT FROM MANDATORY DISCLOSURE UNDER THE FOIA. EXEMPTIONS ______ APPLY.

d. Removal of the "For Official Use Only" marking can only be accomplished by the originator or other competent authority. When the "For Official Use Only" status is terminated, all known holders will be notified to the extent practical.
5. DISSEMINATION: Contractors may disseminate “For Official Use Only” information to their employees and subcontractors who have a need for the information in connection with a classified contract.

6. STORAGE: During working hours “FOR OFFICIAL USE ONLY” information shall be placed in an out-of-sight location if the work area is accessible to persons who do not have a need for the information. During nonworking hours the information shall be stored to preclude unauthorized access. Filing such material with other unclassified records in unlocked files or desks is adequate when internal building security is provided during nonworking hours. When such internal security control is not exercised locked buildings or rooms will provide adequate after-hours protection or the material can be stored in locked receptacles such as file cabinets, desks, or bookcases.

7. TRANSMISSION: “FOR OFFICIAL USE ONLY” information may be sent via first class mail or parcel post. Bulky shipments may be sent by fourth-class mail.

8. DISPOSITION: When no longer needed, FOUO information may be dispose of by tearing each copy into pieces to preclude reconstructing, and placing it in a regular trash container or as directed by the User Agency.

9. UNAUTHORIZED DISCLOSURE: Unauthorized disclosure of FOUO information does not constitute a security violation but the releasing agency should be informed of any unauthorized disclosure. The unauthorized disclosure of FOUO information protected by the Privacy Act may result in criminal sanctions.

10. Point of contact is the DCSINT, DSN 987-5875, Commercial (732) 532-5875.
