Deputy Chief of Staff for Intelligence (DCSINT)**

1. The "For Official Use Only" (FOUO) marking is assigned to information at the time of its creation in a DoD User Agency. It is not authorized as a substitute for a security classification marking but is used on official government information that may be withheld from the public under exemptions 2 through 9 of the Freedom of Information Act.

2. Other non-security markings, such as "Limited Official Use" and "Official Use Only" are used by non-DoD User Agencies for the same type of information and should be safeguarded and handled in accordance with instruction received from such agencies.

3. Use of the above markings does not mean that the information cannot be released to the public, only that it must be reviewed by the Government prior to its release to determine whether a significant and legitimate government purpose is served by withholding the information or portions of it.

4. IDENTIFICATION MARKINGS

a. An unclassified document containing FOUO information will be marked "FOR OFFICIAL USE ONLY" at the bottom of the front cover (if any), on the first page, on each page containing FOUO information, on the back page, and on the outside of the back cover (if any). No portion markings will be shown.

b. Within a classified document, an individual page that contains both FOUO and classified information will be marked at the top and bottom with the highest security classification of information appearing on the page. If an individual portion contains FOUO information but no classified information, the portion will be marked "FOUO."

c. Any "For Official Use Only" information released to a contractor by a DoD User Agency is required to be marked with the following statement prior to transfer:

**THIS DOCUMENT CONTAINS INFORMATION EXEMPT FROM MANDATORY
DISCLOSURE UNDER THE FOIA. EXEMPTIONS _____ APPLY.**

d. Removal of the "For Official Use Only" marking can only be accomplished by the originator or other competent authority. When the "For Official Use Only" status is terminated, all known holders will be notified to the extent practical.

5. **DISSEMINATION:** Contractors may disseminate "For Official Use Only" information to their employees and subcontractors who have a need for the information in connection with a classified contract.

6. **STORAGE:** During working hours "FOR OFFICIAL USE ONLY" information shall be placed in an out-of-sight location if the work area is accessible to persons who do not have a need for the information. During nonworking hours the information shall be stored to preclude unauthorized access. Filing such material with other unclassified records in unlocked files or desks is adequate when internal building security is provided during nonworking hours. When such internal security control is not exercised locked buildings or rooms will provide adequate after-hours protection or the material can be stored in locked receptacles such as file cabinets, desks, or bookcases.

7. **TRANSMISSION:** "FOR OFFICIAL USE ONLY" information may be sent via first class mail or parcel post. Bulky shipments may be sent by fourth-class mail.

8. **DISPOSITION:** When no longer needed, FOUO information may be disposed of by tearing each copy into pieces to preclude reconstructing, and placing it in a regular trash container or as directed by the User Agency.

9. **UNAUTHORIZED DISCLOSURE:** Unauthorized disclosure of FOUO information does not constitute a security violation but the releasing agency should be informed of any unauthorized disclosure. The unauthorized disclosure of FOUO information protected by the Privacy Act may result in criminal sanctions.
