Professor Segal,

In the past several days, additional members of the University community have come forward to express their interest in providing perspective on the hiring of the position of Director of the Center for Holocaust and Genocide Studies. Because of the community-facing and leadership role that the Director holds, it is important that these voices are heard. Our focus is on the mission of the Center. Accordingly, the offer letter of June 5, 2024, is hereby withdrawn to allow an opportunity to determine next steps.

Thank you,

Interim President Jeff Ettinger
